

Good afternoon, Team!

Just a reminder that for all SimplyHome system and Environmental Control (EC) system installations, please upload all photos of installed components AND the signed client sign-off sheet to the "Pics of Installed Components" section of the System Installation page in Podio **before** marking the system as installed. Be sure to include the labeled sensor box in the photo so that the sensor can be identified (or rename the photo - whichever is easiest for you). The client sign-off sheet is available on the Rep Portal. ("Installation Sign-Off Sheet")

Thanks and feel free to call or email us if you have questions or need more information. Enjoy the rest of your day!
