

Good afternoon, Team!

Please note effective immediately, we are no longer selling smoke detectors (product code 6010-01-1; \$99.95 each) for SimplyHome systems. They have been discontinued from the manufacturer and the compatible replacement does not meet our standards. We will support existing smoke detectors currently in the field.

We will continue to offer smoke alarm monitors (product code SLX-AD-T3; \$69.95) as part of the SimplyHome system. Please see the attached document for more information. This document is for internal use only and not meant to be shared with clients.

Please let us know if you have any questions or need more information. Thanks and have a great day!
