

Hey Team!

Just a heads up that the following email went out today to the primary contacts on all active Opps with medication dispensers listed:

Hello from *SimplyHome*!

Daylight Saving Time (DST) will begin this **Sunday, March 10, at 2:00am Eastern**. If you are in a timezone that honors DST, please remember to adjust your Medication Dispenser time by moving it **forward one hour**. If you adjust the display time, there is no need to adjust the alarm times.

If you use additional technology from *SimplyHome* that works in conjunction with a clock, there is no need to adjust anything as it has been pre-configured for DST.

If you have an active Cellular Medication Dispenser, the time will automatically adjust and no action is needed on your part.

Please call us toll free at 877-684-3581 or email us at [help@simply-home.com](mailto:help@simply-home.com) if you need any assistance or have questions. We're thankful for your business... all the time.
